

Change of Supplier Notice

March 2012

Dear Customer

Femcare-Nikomed Limited would like to confirm that effective from the 1st April 2012, all Utah Medical Products Inc. (UTMD) specialised devices, previously distributed by EuroSurgical Limited, will now be available directly from UTMD via Femcare-Nikomed Ltd, its newly acquired UK based subsidiary.

The transfer of UTMD product portfolio from EuroSurgical to Femcare-Nikomed is a direct consequence of the acquisition and we trust you will find this a seamless transition.

Please be advised that Femcare-Nikomed will honour any existing EuroSurgical pricing through to 31 December 2012.

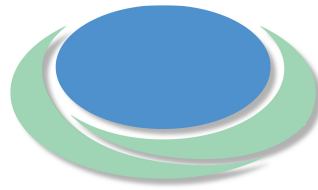

Both Femcare-Nikomed and EuroSurgical would like to thank you for your continued business over the years. Going forward, if our Customer Service Team can be of any assistance in servicing your future business requirements from our comprehensive product portfolio, please do not hesitate to contact our Team on:

 **01794 525100**

We look forward to working with you.

Julie Thornley

< UtahLoop® Electrodes:

Incorporating UTMD's exclusive Safe-T-Gauge®, UtahLoops are designed to provide accurate cervical specimens with minimal thermal artifact for your LETZ procedures. This high specimen quality will help you obtain excellent, confident histopathology results.

C-LETZ® Conization Electrodes: >

Provide a single specimen for advanced CIN involvement. C-LETZ is known to provide a high rate of complete lesion excision and conclusive histopathology results.

< OptiSpec™:

Gynaecology light - a simple source of shadow-free illumination that clips onto existing exam specula.

Epitome Scalpel & OptiMicro Needle: >

Realise the excellent healing characteristics of a sharp scalpel incision while enjoying the hemostasis of diathermy. These specialised electro-surgical electrodes provide extremely precise tissue dissection.

< Finesse® Electro-surgical Generator:

Designed to meet the highest performance and safety standards required for loop electro-surgery procedures; incorporating controlled output circuitry, integrated smoke evacuation, three stage particle filtration and auto shut off safety feature.
